

# Welcome

I am delighted you are considering Health Sciences University as your chosen place to study. As a specialist institution, we are a leading provider of musculoskeletal healthcare; providing the world with professionals who are enthusiastic, equipped and ready to make a difference.

Today you will be able to find out more about what our courses offer along with what healthcare career options are available and find out more about our established clinical expertise. Please feel free to explore our beautiful campus, our on-site clinics and centres and speak to our academics and student ambassadors to get a feel for what life is like in our friendly, supportive community.

When you study with us, your learning will be underpinned by hands-on clinical experience from the outset. Every day holds opportunities for you to seize; to learn from respected healthcare clinicians and tutors, share and grow ideas and ways of working with your peers in multidisciplinary settings, and become part of our unique, distinctive and diverse community.

**Professor Lesley Haig**  
Vice-Chancellor Health Sciences University

“I came to an open day at HSU, and loved the campus and the activities provided for prospective students. The staff and students were friendly and passionate, and I was excited to be part of it.”

“When I was looking at what I wanted to do, I knew I wanted a job where I could help people.”

# Talks and Activities

Thank you for taking the time to visit Health Sciences University's open day. Our open days follow a 'drop in' format to give you the opportunity to tailor your visit to meet your requirements. The campus will be open from 10am and closing at 3pm, we recommend latest arrivals by 1pm to give you enough time to see and hear what is on offer here at HSU.

## Course Talks

At the heart of university study is your course. Course talks are a chance to learn more about what content our courses cover, meet your lecturers and get a feel for how we teach here at Health Sciences University. Course talks will be taking place at different locations on our campus. Please refer to the timetable for times and locations of our course talks in the following subject areas:

- Chiropractic
- Dietetics
- Physiotherapy
- Radiography (Diagnostic Imaging)
- Radiography (Therapeutic and Oncology)
- Speech and Language Therapy
- Sport and Exercise Science
- Sport Rehabilitation

## Postgraduate One-To-One Chat

Students interested in finding out more about some of our postgraduate level courses have been given a timeslot for an informative one-to-one chat with a course representative. Head towards the main reception, registering 10 minutes before your appointment time for these courses:

- Breast Imaging
- Medical Ultrasound
- Occupational Therapy
- MSK Paediatric Health
- Podiatry
- Research PhD
- Sport and Exercise Psychology
- Sport, Exercise and Rehabilitation

## University Overview

Join us for the University overview talk and find out more about who we are including our history, our partners and how we are embedded both globally and within our local community.

## Admissions Talk

An informative talk on how to apply to HSU covering our entry requirements, UCAS applications and what we are looking for in a strong personal statement.

## Student Services, Finance and Library Talk

We explain how HSU supports you through your studies including counselling, study, library and learning skills, student advice and support with accommodation. Information also around tuition fees, student loans and typical university expenses.

## Students' Union Talk

Hear from our Students' Union about student life discovering the vibrant clubs, societies, and endless opportunities for growth and making new connection for a fulfilling university experience.

## Course and Information Stands

Throughout the day, feel free to speak to course staff who will be situated in key subject-specific spaces. Also, our Student Services and Students' Union team will be on-hand available to answer any questions you have about transitioning to university.

## Integrated Rehabilitation Centre

Ever seen an Alter-G anti-gravity treadmill? Our brand new multi-zone Integrated Rehabilitation Centre is fully equipped with leading-edge specialist rehabilitation equipment, ready for you take a look.

## Clinic Tours

Did you know that over 40,000 patients come through our on-site clinics every year? Our clinic facilities are open for you to visit and tour. Our clinic tours include treatment rooms, digital X-ray ultrasound, as well as one of the UK's few open upright MRI scanners.

## See How You'll Learn

Take a self-directed tour around our campus and see the spaces where you'll be learning. Discover medical manikins in our simulation spaces and explore the anatomy suite with 3D virtual anatomy. Also, visit our technique rooms and clinical skills suites. Take a look through the many books and journals in our Grade II listed Library. These are just a few things for you to look out for on your way around!

## Visit Student Halls Accommodation

Take a trip to discover more about Lulworth Student Halls accommodation nearby. Located 1.8 miles from campus, our partner halls offer great facilities, pleasant communal spaces and a friendly atmosphere.

## Refreshments

Free teas and coffees will be made available and our Campus Café will also be open during the day with a selection of light bite options.

# Explore Our Specialist Campus

We will be holding campus tours throughout the day or explore the campus at your own pace using our map ([see overleaf](#)).

**Don't miss these key locations:**

## Subject Stands (5)

Explore subject-specific spaces and meet with course representatives. Staff at these stands are available to answer any course-related questions.

## Student Services and Application Support (5, 6)

Chat with staff from Student Services, Finance, and Accommodation. Our Admissions team is also on hand to assist with entry requirements and applying. These are located in the Integrated Rehabilitation Centre (IRC), Garnet Campus.

## Library (7, 14)

Visit our newly refurbished library, featuring over 10,000 books, 600 e-books, 14,000 journals and medical databases, including Anatomy TV.

## Radiography and Imaging Clinics (21 - 24)

Tour our clinics offering advanced radiography technology to support the community. Situated in this location you also see the diagnostic x-ray suite and the mock patient ward.

## Chiropractic Clinic (27-29)

Tour the Chiropractic Clinic with final-year students and explore the treatment rooms, x-ray, ultrasound facilities and our Open Upright MRI scanner—one of the few in the country.

## Sport and Rehabilitation (30-40)

Our Sport and Rehabilitation Centres on Parkwood and Garnet campuses support teaching, research, and sport professionals. Clients include the Armed Forces Para-Snowsport Team, Team GB athletes, and Bournemouth BMX stars.
